Adding two digit numbers counting by 10's and one's

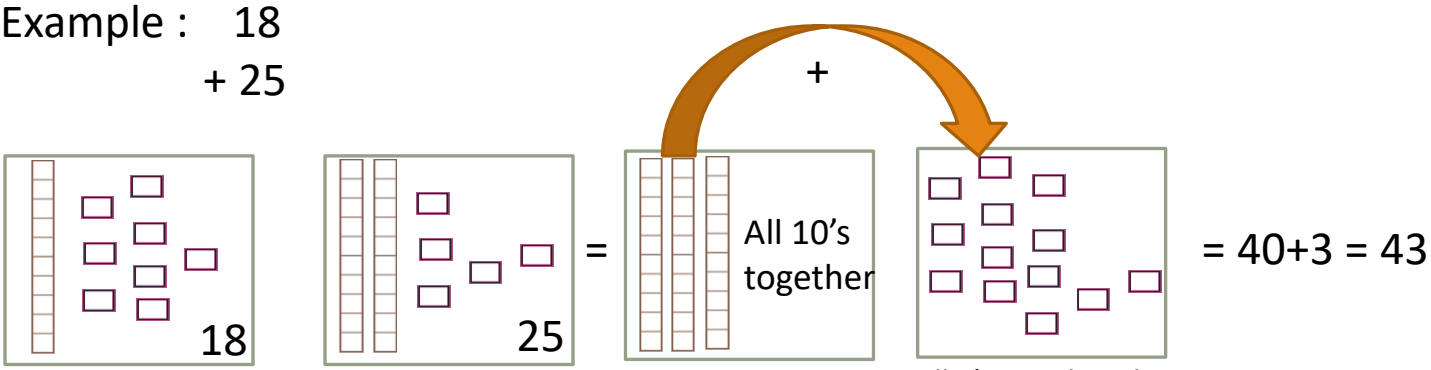
Rule: ***a) Draw the numbers***

b) Group in 10's

c) group in 1's , find and loop 10's

d) Count together to find the number

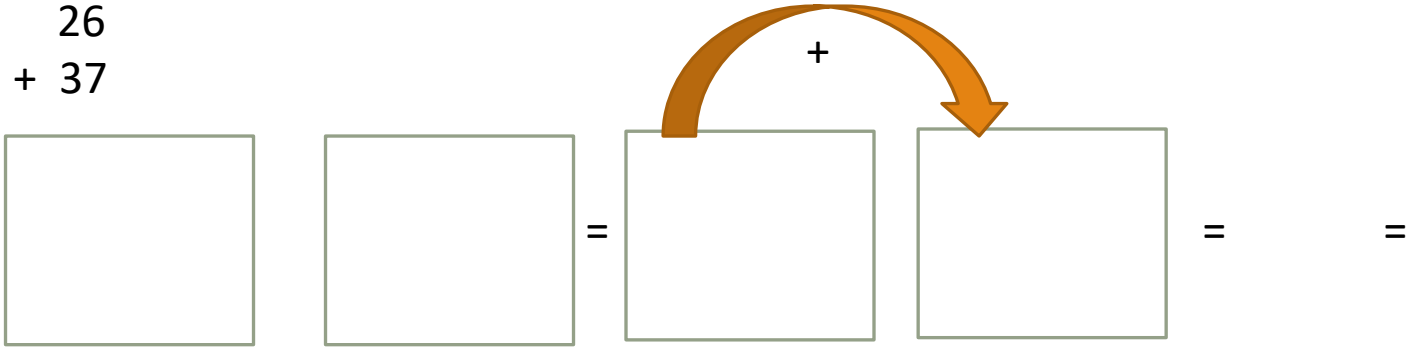
Example : 18
+ 25



= 40+3 = 43

All 1's together, draw loop for 10, Add 10 with the 10's group and find the Sum

26
+ 37

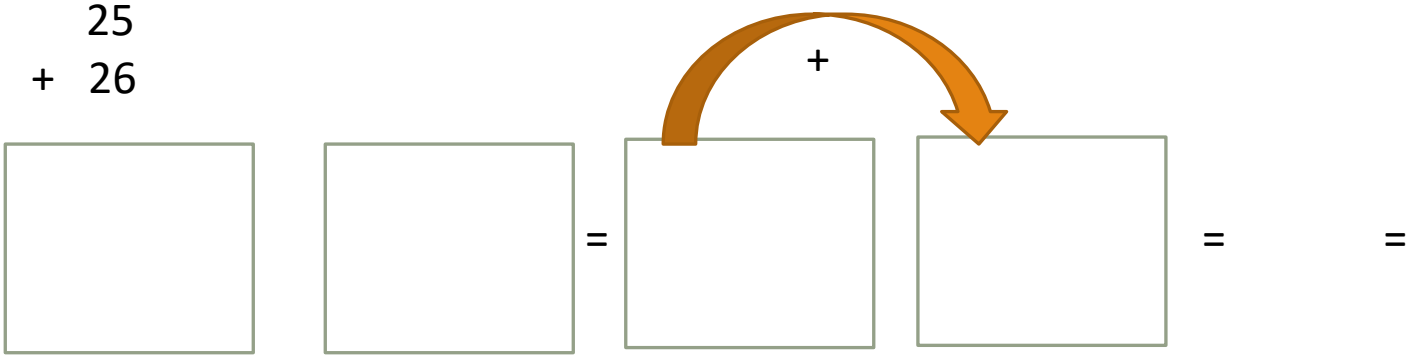


= =

All 10's together

All 1's together, draw loop for 10, Add 10 with the 10's group and find the Sum

25
+ 26



= =

All 10's together

All 1's together, draw loop for 10, Add 10 with the 10's group and find the Sum
