

Adding two digit numbers counting by 10's and one's

Rule: a) Draw the numbers

b) Group in 10's

c) group in 1's , find and loop 10's

d) Count together to find the number

21
+ 29

= + =

All 10's together All 1's together, draw loop for 10, Add 10 with the 10's group and find the Sum

34
+ 29

= + =

All 10's together All 1's together, draw loop for 10, Add 10 with the 10's group and find the Sum

19
+ 38

= + =

All 10's together All 1's together, draw loop for 10, Add 10 with the 10's group and find the Sum
