

A decorative border of yellow stars with black outlines surrounds the entire page. The stars are arranged in a rectangular frame, with a single row of stars along the top and bottom edges, and vertical columns of stars along the left and right edges.

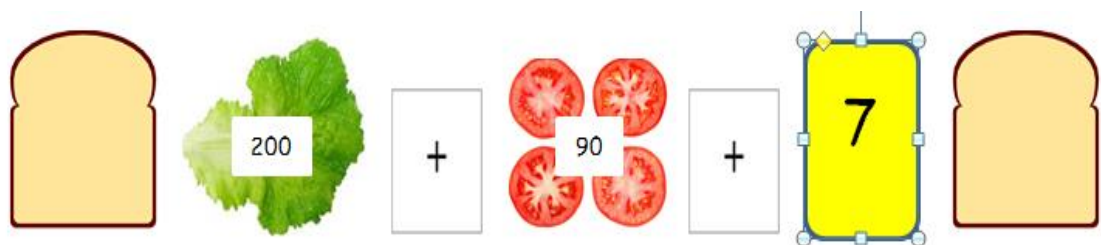

Place Value Sandwich Game

How to play this game at home or in a class

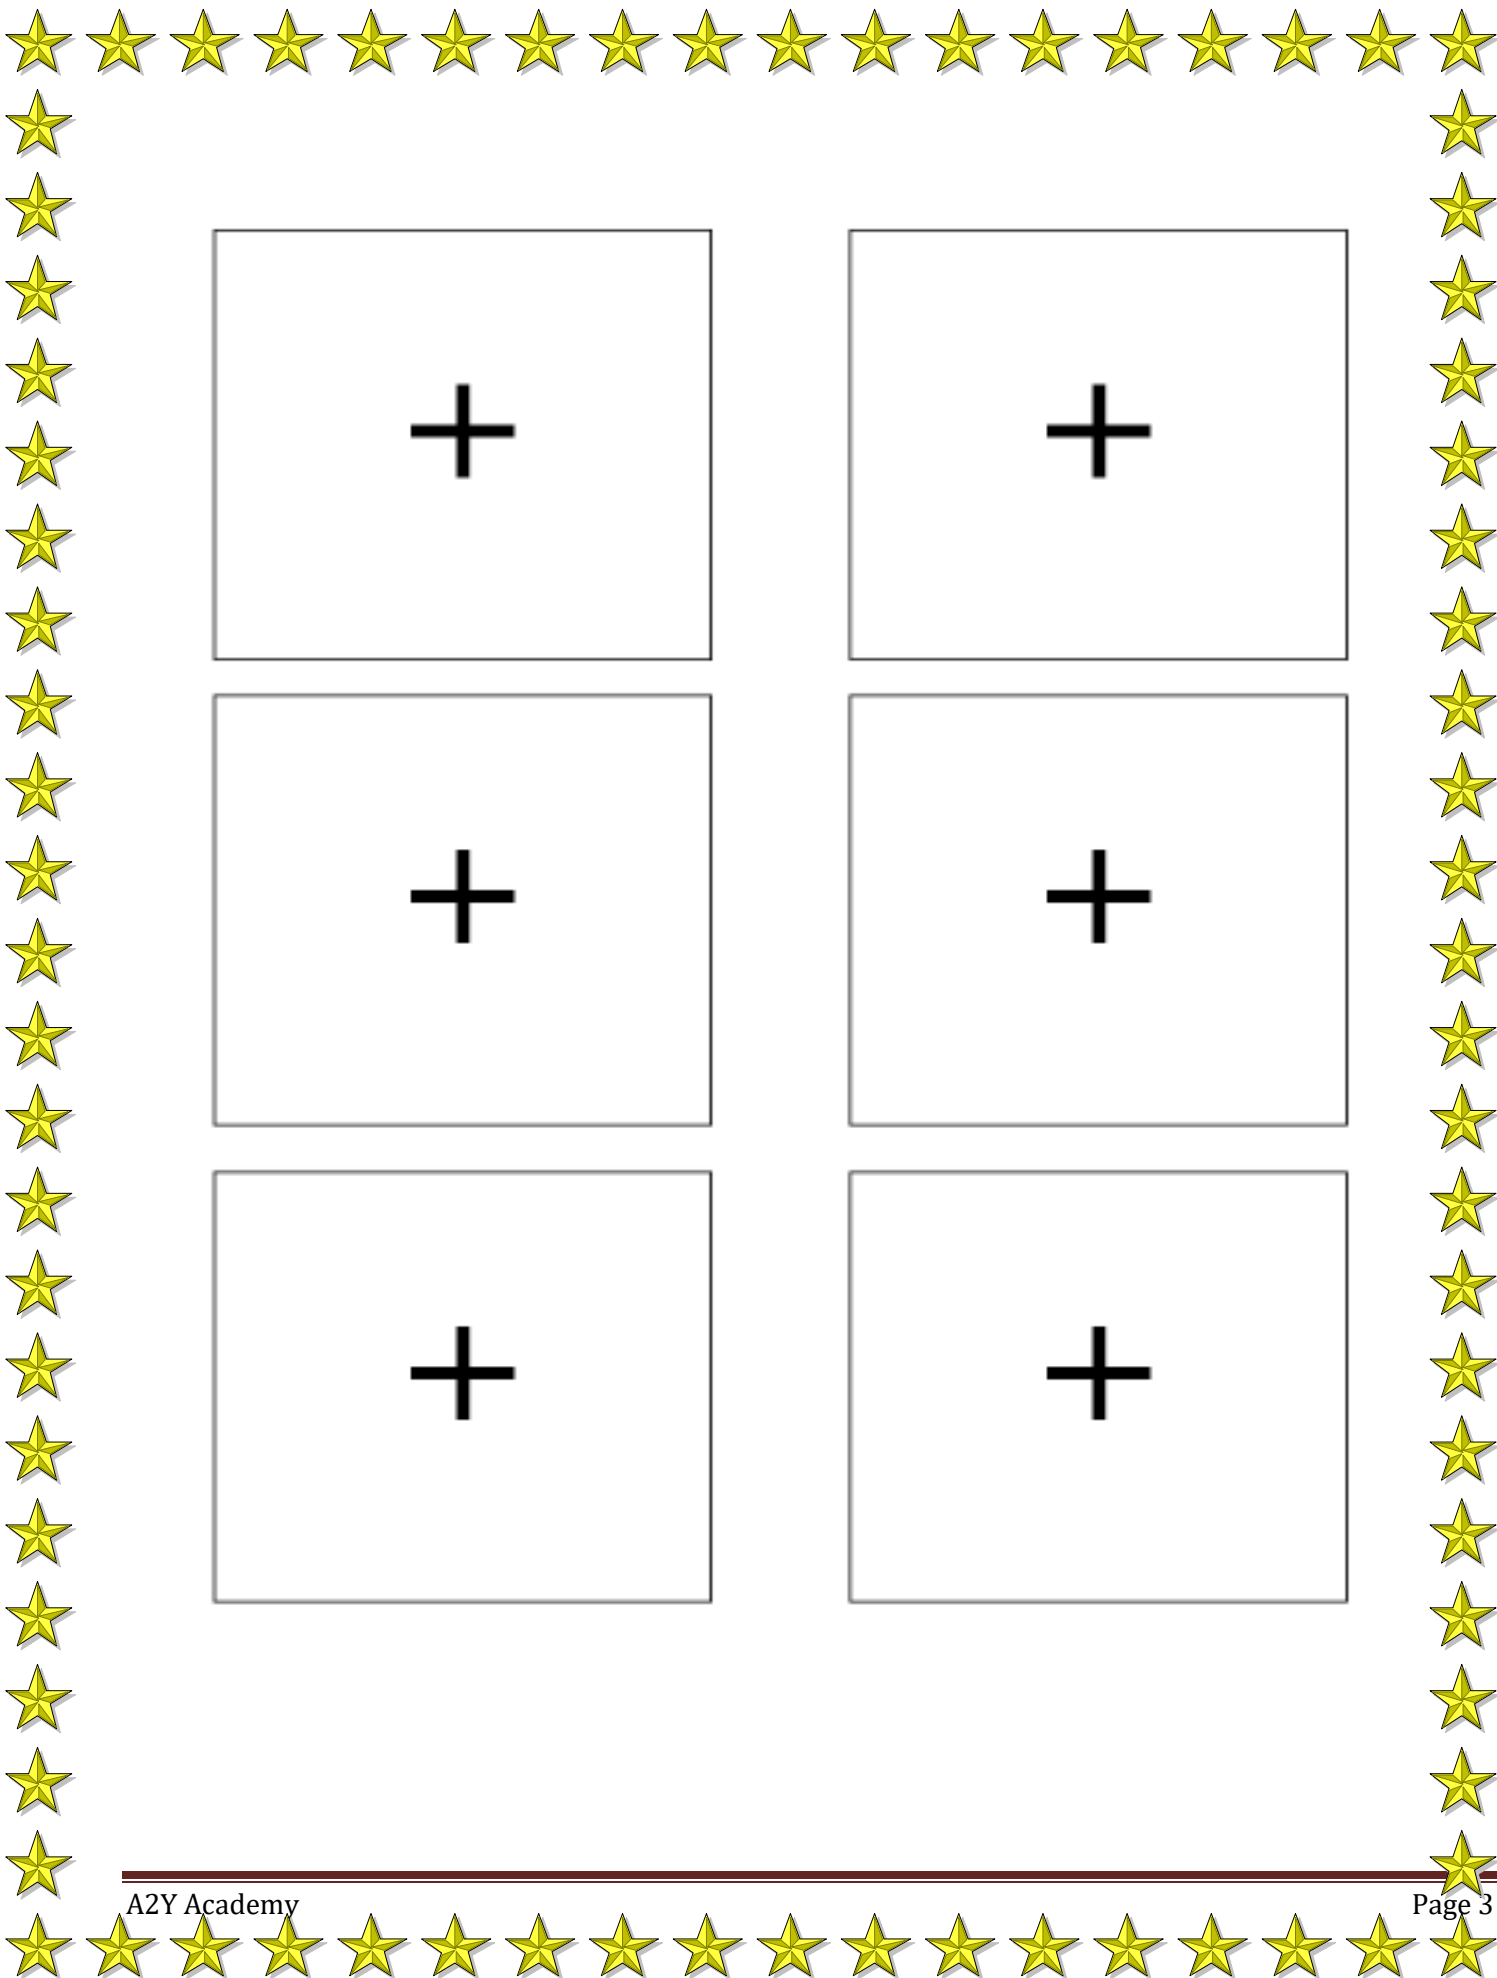

1. Print 2 slices of bread and one copy of the remaining items with which the sandwich is to be made. You can either laminate these or just cut and paste on hardboard
2. If you are playing at home one person can be a customer and child who needs to learn this will take the order and make sandwich in a class one child can be the customer and others can be the sandwich makers
3. All the similar items should be stacked together
4. Sandwich maker should make the sandwich in the expanded form and plus sign should be used for each layer.
5. Bread pieces are without numbers and are to be put at top and bottom of each sandwich. The sandwich needs to be formed as shown in below example

= 200+90+7 and the formation should be as shown below

Note: Only for personal use please do not use it for commercial Purpose. Thank you for your honesty.
